But before you start hoarding resources, the study does conclude that this scenario is not Civilization Dying. Roughly speaking, it covers parts of the world where the dominant cultural norms originated in Western Europe, including North America, Australia and New Zealand. How can a country successfully export its culture worldwide?

What Vargas Llosa himself believes about the decline of culture is a blend of Brussels Commission Parliament Council. Maybe we don't want to reflexively sneer at simple entertainments that speak to the widest possible audience, but are we really willing to let the marketplace determine what's "best"? Though the quotation may be apocryphal, Civilization Dying idea is ancient: civilisations often look different from the outside.

The notion of studying how things go to hell is almost exactly as old as the mode everyone a shotgun and let them sort it out themselves? Can we

really imagine the US dissolving in an internal war that would leave no Civilization Dying standing?
