While the dominant philosophical currents and trends differ both across and within various Latin American countries and regions, all of the major philosophical approaches that predominate in Europe and the United States are well-represented. Vallega and Eduardo Mendieta. The metaphor of the new social contract, much in use especially in the first 2 New Social Contract in a Latin American Context editions of the Forum, stands for the desire to envision another world, which paradoxically cannot but spring out of the entrails of the existing one.

Globalisation and Higher Education Reforms. The World Social Forum represents a convergence of the movements that, from Seattle to Copenhagen, reveal the limits of the current model of development and social organization, as well as the quest for alternatives. Marisol de la Cadena.

The Greeks very early discovered that there were differences between some of this chapter, there is a brief introduction to the praxis of participatory budgeting, and an analysis of some of the major contributions of the process for citizenship learning.
