Service Registry Contracts may be dictated by one party. Signinorregistertoaddandsubscribetocomments. These SOA Governance come from either natural changes in business policy or iterations of the SGVM to keep the SOA governance current with business strategies. Meanwhile, you're in trouble because your catalog application stopped working even though there was nothing wrong with your application, just the service it was calling. Arethepoliciesandstandardstootight?SOA Governance combining these two with a capability map against the business domains, in essence a heat map of business capabilities, the areas where shared services will provide the most value can more easily be identified. The governance team would then need to consider whether the policy is too restrictive or if further education needs to take place.
